
ANNOUNCING

The Ninth Annual

WESTERN WASHINGTON COMMUNITY COLLEGE STUDENT MATHEMATICS CONFERENCE

Saturday, February 21, 2015

9:30 am – 3:30 pm

Highline College

Building 2

Des Moines, WA

Contact: Terry Meerdink

tmeerdink@highline.edu

206-592-3028

Community college students will present on mathematical topics of interest to them and their peers, drawing on their experiences in their coursework or topics they have encountered outside of their classes.

The Washington Mathematical Association of Two-Year Colleges has provided funding support for the Western Washington Community College Student Mathematics Conference. Additional support has been provided by the Mathematical Association of America.

CALL FOR PRESENTERS

The Ninth Annual Western Washington Community College Student Mathematics Conference will be held on Saturday, February 21, 2015 on the campus of Highline College in Des Moines, WA, from 10 am to 3 pm. We seek students who would like to share interesting ideas and discoveries, either directly from their courses or from topics outside of their normal classes which would be accessible and of interest to other community college math students.

Students may make presentations individually or in small groups. While we expect that most presentations will be between 10 and 20 minutes in length, there are no official length requirements or limits; we merely ask for a good estimate of the time each student or group needs.

Please register at www.wwccsmc.org. Presenters should send a brief synopsis of your proposed presentation, along with the name(s) and email address(es) of the presenter(s), to Terry Meerdink at tmeerdink@highline.edu by **February 13, 2015**.

There is no registration fee for this conference, and lunch will be provided.

REGISTRATION

The Ninth Annual Western Washington Community College Student Mathematics Conference will be held on Saturday, February 21 on the campus of Highline College in Des Moines, WA from 9:30 am to 3:30 pm.

Community college students will talk about the interesting, exciting mathematics they're doing, both in and outside of their classes, and there will be other informative and entertaining mathematical activities.

Participant may register at www.wccsmc.org.

Each presenter (or group) should send a brief synopsis of your proposed presentation, along with the name(s) and email address(es) of the presenter(s), to Terry Meerdink at tmeerdink@highline.edu by **February 13, 2015**. Submitting a presentation will also be considered as registration.

In the unfortunate event that you find yourself unable to attend after registering, please let Terry know as soon as possible. This is especially important for presenters!

There is no registration fee for this conference, and lunch will be provided.
