### Course Description

Third quarter of the Calculus sequence. Topics include calculus of parametric and polar functions, lines, planes and vectors in  $R^3$ , the calculus of vector-valued functions, sequences and infinite series, power series and Taylor expansions.

### Course Objectives

*The student will be able to ...*

- i. Compute equations of lines and planes, and use vector properties to calculate distances and relationships for lines, points, and planes.
- ii. Apply the methods of differentiation and integration to graph and calculate arc lengths and areas for polar and parametric curves.
- iii. Solve problems involving applications of vector functions to motion in space by calculating arc length, curvature, and the tangential and normal components of acceleration.
- iv. Apply convergence tests to determine if infinite series converge.
- v. Calculate power and Taylor series expansions for functions along with their intervals of convergence.

### Text

*Calculus, Early Transcendentals (8<sup>th</sup> ed.)*, by James Stewart.

### Prerequisite

Math 152 with a minimum grade of 2.0.

### Calculators

A graphing calculator is required for this course.

- i. The TI-84 calculator is recommended. The use of symbolic calculators such as the TI-89 will not be allowed during exams. Furthermore, the use of all calculators may be prohibited during some exams (forewarning will be given).
- ii. Very limited class time will be spent explaining the use of calculators.
- iii. Calculators may be rented from the Math Department on a first come first serve basis.

## Homework

The format and grading criteria for homework is as follows.

- i. **Enhanced Web Assign:** Graded homework will be administered online thru EWA. The website is: <https://www.webassign.net/wa-auth/login>  
**EWA Class Key:** highline.cc.wa 2225 2098 (You can try it out for two weeks).
- ii. **Submissions:** You may make up to five submissions on most problems. However some questions are multiple guess. In this case, you are generally only allowed 1 or 2 attempts.
- iii. **Multiple Guess:** Sections with a large number of multiple guess questions are marked with an asterisk (\*). Sections 11.1-7 are primarily multiple guess in EWA. They are also quite challenging. So be prepared to work on this part of the homework.
- iv. **Bonus:** If you complete homework exercises 24 hours in advance of the deadline, you will earn a 3% bonus on the problem.
- v. **Extensions:** You may request a 24 hour extension on the homework *for the week after the original due date*. There is a 20% penalty on each problem completed using the extension.

## Review Assignments

- i. There are multiple online review assignments due the day of each exam. The combined review assignments are valued the same as one extra credit homework assignment per test/final. These are not required, but are recommended.

## Quizzes

See the schedule for the tentative dates and times.

- i. There are no make-up quizzes.
- ii. It is very important that you are on time for group quizzes. If you are more than five minutes late, there will be a penalty. 5 minutes => 5% penalty. 6 minutes => 6% penalty  
...
- iii. If you miss a quiz, 75% of your next quiz will be used in its place (you must remind me).
- iv. If you miss a second quiz, a score of 0% will be assigned.
- v. Spoken and written communication as well as sharing of calculators during exams is prohibited.

## Tests

There will be midterm exams given during the quarter.

- i. The exams will be cumulative, but will emphasize the material covered since the last test.
- ii. If you miss a test, a score of 0% will be assigned. All tests must be taken during the scheduled class time. *No make-up tests*.
- iii. Spoken and written communication as well as sharing of calculators during exams is prohibited.

## Final Exam

A comprehensive final exam will be held in the regular class meeting room. See the quarterly class schedule for dates and times. The final exam is mandatory and a grade of 0.0 may be assigned at the instructor's discretion to those who fail to take the final exam.

**Grading**

Homework: 10%, Quizzes: 10%, Tests: 50%, Final Exam: 30%. GPA's will be according to:
